Subject: RE: Red Hill AOC/SOW Project Coordinators Meeting - 29 JAN 2018

Lloyd has preference to have all NDE discussion on Monday instead of splitting to two days. If NDE is on Monday, TUA and Leak Detection can be on Tuesday.

Lene,

As we're in agreement, I'm going to run these possible changes by Mark. Please let us know if Lloyd or Mike has a reason they might prefer to split the destructive testing sections up, given the draft schedule Mark provided, we could split the discussion on NDE and move the TUA discussion if that's preferred.

Thanks,

Lyndsey Tu

I'm ok with the proposed changes. I'm also checking with Lloyd and Mike to see if they prefer to have all of the NDE discussion on one day. If TUA will be on Tuesday, we could potentially have all of the NDE discussion on Monday.

Lene and Fenix, we'd like propose some changes to the draft agenda Mark Manfredi provided for the week of March 12th and would like your concurrence before reaching out to the Navy.

1. We'd like to move the TUA discussion from Monday to Tuesday so that our Division Director can attend.
2. We would also like to replace the Thursday afternoon SME meetings in the Tank infrastructure sections with a meeting between the Navy and regulators on sections 6 & 7. As we will have our environmental contractors available that day and believe it will be a better use of time while we are there.
3. In addition we would like to have an EPA/DOH team meeting on March 14th in the morning to discuss our shared goals, and to get on the same page in advance of the public meeting. This meeting would preferably be at Keith's office so we can easily meet with Federal and State staffers after.

Let me know if you agree with the proposal or have other preferences.

Thanks,

Lyndsey Tu
